Oslo Børs and Academy

[Oslo Børs](#) offers the only regulated markets for securities trading in Norway today and is world-leading in the energy, shipping and seafood sectors. Oslo Børs joined the Euronext Group in June 2019.

As part of Euronext, companies listed on Oslo Børs now meet a larger investor audience, which means increased access to capital, liquidity and interest. More investors are also meeting through our efficient and secure trading platform, where our unique Single Order Book allows around 180 brokers to trade, clear and settle in a uniform way.

[Academy](#), the training centre of Euronext Group, turns **capital markets expertise** into world-class training courses and programmes.

Our programmes reflect the evolution and trends of **financial markets and their ecosystems**.

Key assets of our learning centre are our centrality in capital markets, and our **internal and external faculty**, whose contributors are drawn from practitioners, academics, advisors and financial market specialists.

As a financial market infrastructure, being at the centre of capital markets, we understand not just what is happening now, but also what's changing - so we can design our courses to equip attendees with the necessary skills for the world of today and tomorrow.

An accredited Management System Certificate

Academy meets the management system standards UNI EN ISO 9001:2015, sector EA:37 since 2007.

The accreditation guarantees internationally recognised quality service standards and allows companies to apply for public funding to finance individual and company training projects.

Programme overview, take-aways and target

Background

Sustainability is now central to corporate competitiveness and visibility to investors, including impact and responsible investors. Consistent with their fiduciary duties, the company directors must provide their investors with greater transparency into how the company is responding to a broader range of environmental and social trends, against a backdrop of higher stakeholder expectations.

Environmental, Social, and Governance ('ESG') concerns are increasingly important for companies and are often a top priority for boards. These concerns present both strategic opportunities and risk management challenges, particularly for the most forward-thinking companies.

Objectives

The course objectives include:

- Considerations on the board level input needed to support the identification and management of ESG risks, opportunities and related capital allocation;
- Setting the right measures to deal with diverse stakeholder groups, including regulators;
- The ability to integrate ESG risks into the broader Enterprise Risk Management practices and procedures;
- Enhancing board members' knowledge and understanding of climate change, considering the broader complex and critical business challenges it brings.

Who should attend

The programme is aimed at the following professionals:

- Board members
- Aspiring and new board members
- Board Secretaries and company Secretaries
- CEOs and member of Executive committees

Key take-aways

Delegates will be provided with a good understanding of the evolving ESG regulatory framework and related obligations and of a benchmarking opportunity with real life examples on how to embrace sustainability inside the corporate strategy.
